ABOUT OLYMPIAD EXAMINATION COUNCIL

Olympiad Examination Council is the world's first government recognized autonomous body. The Olympiad Examination Council was established by the Societies Act 1860 of the Government of India. Since the last decade, Olympiad Examination Council has been conducting prestigious and recognized examinations like International Olympiads and Scientific Competitions among all countries across the world.

WHY OEC IS BETTER THAN OTHERS?

Olympiad Examination Council is an autonomous examination board. More than 120 countries around the world take the Olympiad and Scientific Competition exams every year. Olympiad Examination Council is associated with researchers, professors and teachers from more than 5000 reputed universities and research laboratories across the world. The curriculum of the examination conducted by the Olympiad Examination Council has been prepared by expert researchers and professors. The examination conducted in the council is available to the students in both world level and national level languages. Olympiad Examination Council is working with the goal of all-round development of the student.
